

作品设计 Production creation

能够建立并展现真实的三维设计图，能够在电脑上看到完整虚拟的服装秀，取代了制作真实的样衣及雇用模特。三维立体设计及款式设计系统的强大功能帮助设计师丰富创造力，节省时间，减少样衣制作的费用，因此也缩短了新产品的开发周期

Able to create and present the realistic 3D draped designs. Possible to watch a complete virtual fashion show on computer, instead of spending time to make samples and hiring models to perform. The extremely powerful feature of this design software is to help designers to create 3D draped effect & style design in a much easy way and more effectively to put their creative idea on computer. Save a lot of time as well as reduce the sampling costs, plus shorten the product development cycle.

换网设计 Draping creation

系统提供最简单和直接的方法来得到逼真的三维模拟画面，可通过拖放设计师想要的面料到电子照片或扫描的图片上，也可以根据自己的要求对面料的尺寸和位置做十分精确地定义。由于成本和时间的减少，三维设计能够使管理者实现更加合理和高效的管理

System provides a most easy and direct way to achieve the realistic 3D simulations by drag & drop the decided fabrics onto an electronic model picture. Designers can make a precisely fine tuning on the dimension and positioning of the fabrics onto the garment per the requirement. Due to costs and development time are both reduced, this 3D draping feature makes the management more rational and efficiency to control product R&D progress.

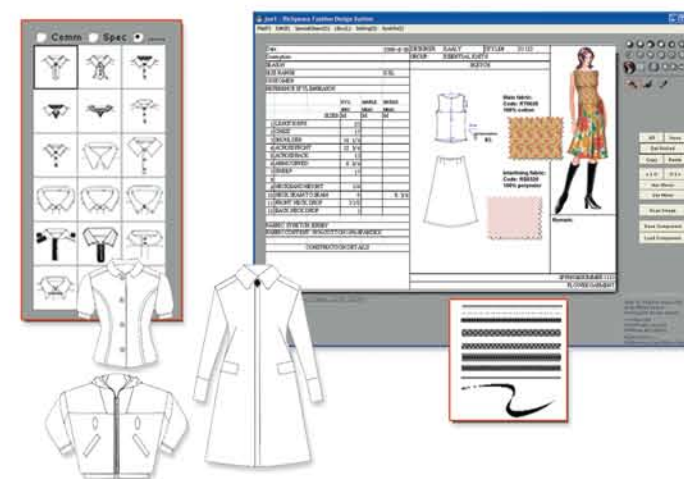

工艺图设计 Sketch and technical design

软件和WORD以及EXCEL程序有很好的兼容性，因此能够方便的制作出生产表单，并配以相应的技术参数，包括设计效果图，款式图，尺寸规格，面料等等，是设计部，采购部，产品部之间很好的沟通工具。

This software has a good compatibility with WORD and EXCEL programs, thus can make the production sheets with all technical details about the style, sketch, measurement spec., fabric and so on, which can be a good communication tool between the design, purchase and production departments.

能够与数字笔连接，用数字笔画的设计图能够及时的在软件界面上显示。

Compatible with digital pen. Designs will be shown on the screen instantly when it is drawn with the digital pen.

归类 Category

同一个款式系列的服装可以保存到同一个文档中，便于管理产品开发。同一款式系列能够自动地做动态展示，这是向客户展示您设计最快捷和最直接的方式

Same series of garment can be saved in one file. It is easy to manage the product development. Similar style can be shown automatically and dynamically presentation. It is the fastest and direct way to show designers idea to customers.
