

富怡绣花、绗缝、飞梭图艺设计打版系统

Richpeace Embroidery & Quilting & Schiffli Design System

Richpeace®

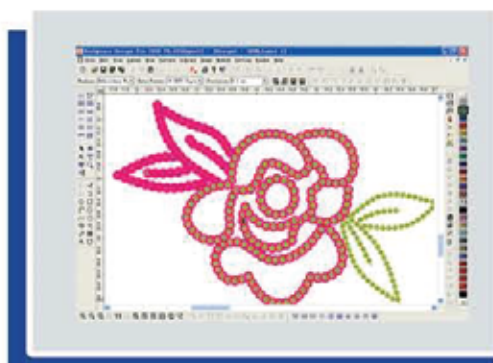

V4.2富怡图艺设计打版系统：中文简体、中文繁体、英文

V4.2Richpeace Design Pro Series: Simplified Chinese, Traditional Chinese, English.

V5.0富怡图艺设计打版系统：中文简体、中文繁体、英文、西班牙语

V5.0Richpeace Design Pro Series: Simplified Chinese, Traditional Chinese, English, Spanish

亮片绣功能 Auto-sequin design system

- 图艺系统在常规手工亮片打法的基础上，增加了自动亮片打法，大幅度提高了打亮片版带和改亮片版带的效率，并保证亮片版带的精确和亮片针法的一致性
- 手动亮片打法：可以完成和创建任何一种亮片针法
- 自动亮片打法：可以非常理想的实现各种亮片效果，使亮片打版高效、精确、准确，用自动亮片打法完成的花版极易编辑、修改，以利于重复使用
- 自动亮片绣的“模式”，实际上是包线的模式，也即亮片针法，可选择“三线星形”、“二线吊环”、“二线叠片”、“四线叠片”、“立体针”等
- 支持双亮片功能：完美的双亮片打版设计、DST版带出碟，实现前、后电机出双亮片功能。在打版系统中直接进行双亮片打版，完美的双亮片模拟打版显示效果，高效、稳定，双亮片一步到位

- Based on the regular manual method of sequin punching Richpeace Design Pro 2000 has increased the auto sequin input function, which directly improves the efficiency of punching, editing sequin tapes and designs, and ensures precision of sequin tapes and designs, as well the consistency of types of sequin stitches.
- Manual sequin punching method: can complete and create any kinds of sequin stitches.
- Auto sequin punching method: performs all kinds of sequin effects to the best, and makes the sequin punching with high efficiency, plus precision and accuracy. The designs made by tauto sequin punching method are extremely easy to edit, revise and good for re-use.
- Automatic the mode of auto sequin design is, thread enveloping, also called sequin stitch.
- May as well using "3 stitches star", "2 stitches star", "2 stitches furling", "4 stitches furling", "stereo stitches" and so on.

镶钻功能 Rhinestone function

- 软件集创意、造型设计、打版、仿真于一体，将传统的数字化技术和编辑方式与先进的图形处理技术有机结合在一起，极大提升了软件创建、编辑、处理、设计花样的能力
- 软件以简便直观的设计方式，与富怡镶钻机工艺相结合，从设计和工艺上提供一体化解决方案，是镶钻设计、生产的不二之选
- Centers the creation, modeling design, punching, and simulation together, which combines the traditional digitizing technology, edition method and advanced graphprocessing technology, and which strengthened the ability of software creation, edition, processing and managing designs. The design of the software with handy intuitive way, and Richpeace
- Dynamic Rhinestone Embroidery Machine craft combined. From the design and process provides integration solutions, it is Rhinestone design and production of theobvious choice.

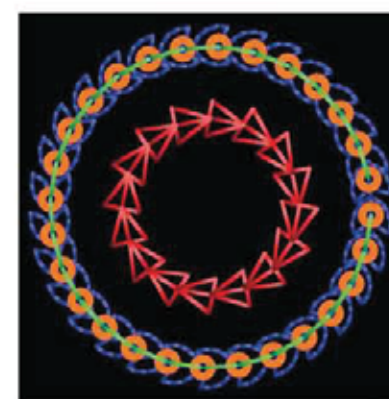

字母功能 Lettering function

- 图艺系统让你可以非常方便、快捷的创建字母对象。可以直接在屏幕上输入和编辑字母，也可通过编辑字母对话框来编辑字母，可以创建不同形状的艺术字，可以使用不同的针法填充字母。
- 图艺系统不仅可以使你直接调用软件提供的字母库，还可以创建用户自定义的字母库。对已有的字母库内按针字母花版，允许重新命名字母库的名称、字母的名称、改变字母的间距和修改字母的其他参数值，可以用形状工具或选择工具来变换或整形一个创建的字母对象，并把修改后的结果保存起来，原来的字母将被新保存的内容所代替。

- Richpeace Design Pro 2000 enables its user to freely creat letters. You and edit can input letters on screen directly or edit letters in the dialog box of Edit Font. The user can even creat different lettering styles, and use different to fill the letters.
- Richpeace Design Pro 2000 could make you load the standard fonts or create user's own defined font library. Adopting the font library provided with the program, you can rename the library or the letters in it, modify the letter spacing of a letter or the parameters. You can modify or shape a letter with Pick Tool or Shape Tool and save it to the library. The original letter will be replaced with the modofied one if they bear the same name.

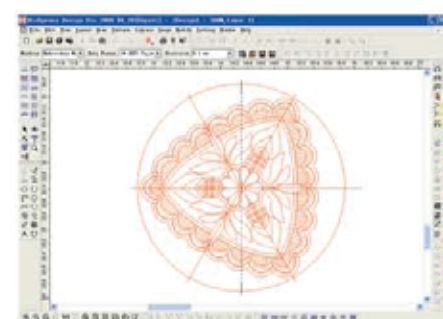

覆版与主题花纹填充 Motif run and motif fill

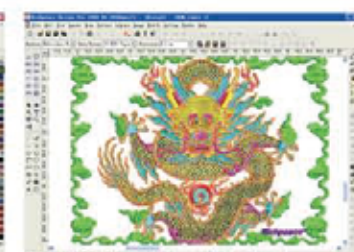

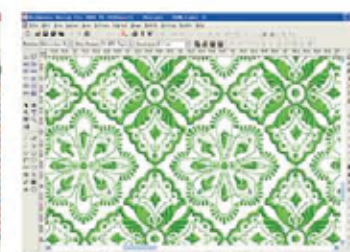

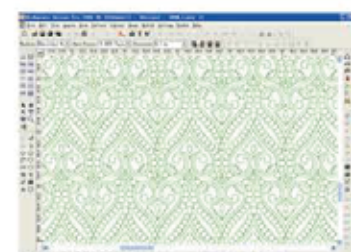

- 小花样通常是指一些小的、简单的或经常使用的针法对象。这些小花样被保存在剪贴板中，您可以随时从小花样剪贴板中使用这些小花样，或者创建新的小花样
- 您可以使用小花样沿着数字化线有规律的排列（覆版），也可以用小花样来填绣一个封闭的图形（主题花纹填充）。利用小花样特有的两个参考点，可以方便的对小花样进行定位、大小修改、旋转等操作。

- Motifs are usually small and simple objects, or symbols that are used repeatedly in several designs. These motifs are stored on the Motif Clipboard, you can transfer them at any time. You can also create your own motifs.
- You can repeat motifs regularly along a digitized line (Motif Run), and you can also fill close shapes with motifs (Motif Fill). Motifs are orginary patterns, except that they have two reference points that allow you to position, scale, and rotate them accurately.

画图系统 Drawing system

- 强大的图功能可提供5种曲线类型，以及圆、椭圆、圆角矩形、渐开线、等距线、特殊图形、字母等矢量图工具，支持艺术花版的创建，可读入/输出多种矢量图形文件格式，如DXF、WMF、EMF、PLT等编辑功能，如曲线结点编辑、等分、图形对象镜像、移动、旋转、变形、转化、（连串）复制等，使打版与绘图能并行工作，事半功倍。
- Our powerful drawing system equipped with 5 types of curves, also with a round, oval, ounded rectangle, equidistance line, special graphics, lettering, and other vector picture tools; supports design creation, read/ input/ output various kinds of vector picture file formats, such as DXF, WMF, EMF, PLT and other editing functions of curve node edition, equal-divide, picture object mirror, move, rotate, shape, convert, copy and so on, that enables punching and drawing to work simultaneously for better efficiency.

富怡绣花、绗缝、飞梭图艺设计打版系统

Richpeace Embroidery & Quilting & Schiffli Design System

Richpeace®

花样管理系统 Manage system

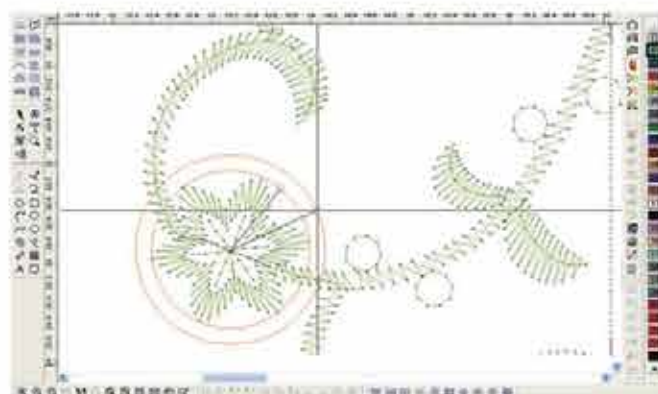

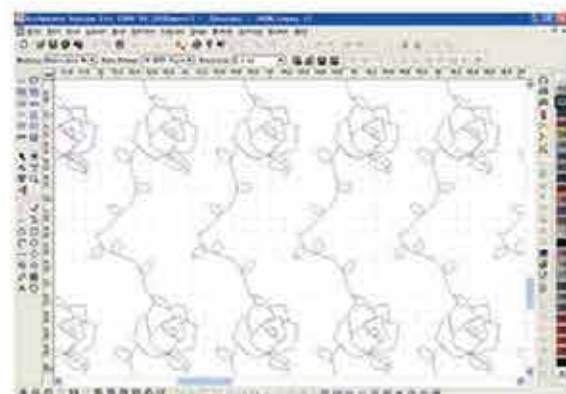

- 同时查看富怡系统花板文件及带文件的缩图，显示多种图像格式文件；任意缩放显示的图像；在属性页面中显示花板信息；支持多个花板的出带出碟、索引打印；模拟绣花显示打印；花样文件管理（列表、显示、删除、排序、分类、合并等）；远程花样传输
- 可根据行业特点进行选择：鞋业绣花管理、帽业绣花管理、服装绣花管理、花边绣花管理、飞梭绣花管理等
- Richpeace Design Pro could check the simple pictures of the design documents and tape documents, show multiple images formats; zoom and enlarge arbitrarily images shown; show in the attributes page design editing information; support saving and exporting multiple designs and index printing; embroider show print; design document management (scheduling display, delete, classification, categorization, combined.....); distance transmission design.
- May be conveniently used for different industries embroidery management needs: such as Footwear Cap, Garment, Schiffli, and Lace-embroidery.

镶钻功能 Rhinestone function

- Supports Schiffli design, with various stitch types and input methods; able to produce various format files for Schiffli design disk reader and punch card. It includes all of the machine function codes, such as loose/ thick/ thin thread, fast/ low speed, borer on/ off, borer +/-, (big/ small) sequins, needle patterns, trim and so on. The system is equipped designs and tape files, with auto-correct function to keep the designs and tape files perfect. In outputting the system can automatically optimizes the best effect. In keeping the high quality of embroidery design, it can adjust speed automatically before or after placing sequins; and change the rotate speed automatically in accordance to the change in stitch step, ect.

- 支持飞梭打版，提供丰富的针法和输入法，可生成多种不同的飞梭花板磁碟及打卡机格式文件，含全部机器功能码，如松紧纱、快慢速、雕孔、（大小）亮片变针、不规则变针、剪线等，系统具备自动纠错功能，保证版带正确无误，在出带时，系统进行自动优化，确保刺绣质量如下亮片前后自动减速、加速，根据针步自动调整转速等

新功能层出不穷 Multiple various new functions

- 提供丰富的绘图工具，可进行完善的矢量图形及图像设计，可随时导入/导出DXF、WMF、EMF等格式的图形文件
- 可实现矢量图形自动针迹填充：您只需按动一下鼠标，图形中立刻自动填入针迹。另外还提供针法转换、针法/图形互换等一系列现金的智能化技术处理技术。
- 引入分层、分组对象的管理机制，极大增强了软件编辑、处理花样设计的能力
- 提供灵活开放的字母库功能。可随时创建、调用、修改用户自定义字母库，支持多种输入法、锁定操作
- 提供按对象、对象类型、颜色、层、针位等多种过滤方式的选择。查看过滤器，多种过滤方式可自由灵活的组合，结合多种命中对象和针迹的方式，可满足用户不同的组织、查看、编辑画稿的需求。
- 使用本系统可进行贴布绣，激光绣，雕孔绣，双亮片绣，植绒绣，毛巾绣，链式绣，盘带绣，绳绣，镶钻等。
- Abundant drawing tools: can produce perfect vector graph and image design; input/output DXF, WMF, EMF and other graphic files.
- Auto-fill stitches to vector graphic: just click the mouse, the graphics will be automatically transaction, stitch/graph exchange and other series of modern Intelligent processing technology.
- Our newly introduced layer, group object management mechanism strongly strengthens the software's processing ability in edition and pattern designing.
- Lively library lettering function: May create, load, modify user's defined lettering library, and supports various types of input methods, and snap operations.
- Provides selecting methods and view filters according to the object, the object type, the color, the layer, the needle position and many other filters, many kinds of filter can be combined freely and flexibly, the union of many kinds of hits object and the needle mark way, may satisfy the user the users' different demands.
- Enable user to do embroidery works like appliqué, laser, bordering, double sequins, tuft stitch, chenille, coiling, rhinestone, and so on

图艺软件的总体特征 General features of Richpeace Design Software

- 软件简单明了、清晰易懂、易学易用
- 低配置、高兼容、支持Windows 95/98/2000/XP/Windows 7
- 支持多种出盘格式，适应多种机型型号
支持绣花的格式：富怡、田岛、田岛双亮片（TBF）、百灵达、ZSK、美高、万佳106、万佳105C
支持飞梭的格式：苏拉、考曼利奥、苍克斯、平冈、丽绣、韩国MICRO
支持绗缝的格式：富怡、羽岛、苏州单头、志成、元昌
- 传统打版仪器与现代数字化工具的结：数字化仪（又称数化板）、扫描仪
- 图艺软件兼具通用打版系统的所有功能
- Richpeace Design Software is a powerful and smart tool; Easy for study and use
- Broad compatibility supports Windows 95/98/2000/XP/Windows 7
Support various Machine Date formats on many kinds of Machine modles. Support Embroidery Format: Richpeace, Tajima, Tajima Double Sequin (TBF), Barudan, ZSK, Melco, WeiJa106, WeiJa105C. Support Schiffli Format: Saurer, Comerio, Hiraoka, Zangs, Lasser, Korea MICRO. Supports Quilting Format: Richpeace, Hashima, SuZhou, YuanChan, CHISHING
- Merge the traditional punching operator and modern digitizing tools: traditional digitizing Operator and modern scanner.
- Richpeace Design Software incorporated in its punching system all functions that are user friendly in general.
