

梭织/印花设计 Woven/Dobby Design

可以快速地创建编织的条纹或格子布的使用选定的颜色，如平纹，斜纹，也有可能改变纱线支数和编织。也可以创建额外的经纱或纬纱的基本多臂机。

Able to create woven stripes or checks fabric quickly with the use of selected color yarns, such as plain weave and twill weave, etc. Also possible to change the yarn count and weave structure. Allow the creation of basic dobbies with additional warp and weft yarns.

肌理设计 Texture creation

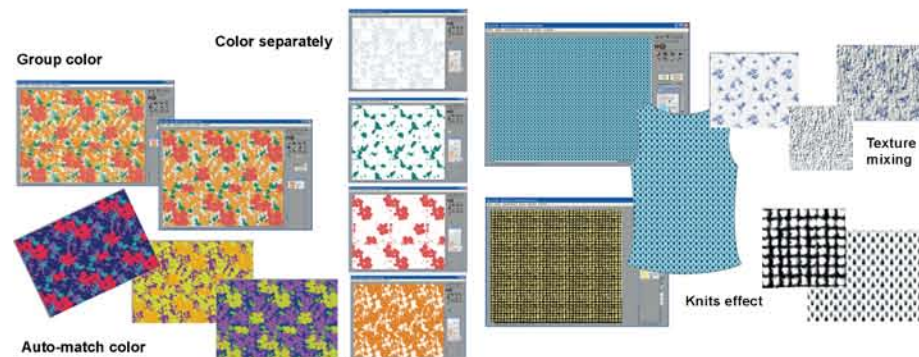

能够浏览并重新设置梭织布的不同种类的肌理，有针织布，皮革，蕾丝，印花及其他几乎所有常用的布料材质。从设计构思到实现，多样化的肌理应用真正的为您的设计增值。并且减少概念设计和实际成品之间的沟通时间。

Both preview or re-design different types of texture for woven fabric, allows knits, leather, lace, prints and other commonly used fabric textures simulation. From design concept to put onto actual fact, variety of textures application can truly enhance and value added to every designs, easier the communication between design and production departments.

印花设计 Prints design

通过裁剪工具，彩喷笔，色调笔，克隆笔等的应用能够修改印花设计或进行重新设计。能够定义印花设计配色方式，包括自动或手动。可实现分色和自动配色。

By using of cropping tool, pen, color pen, clone pen, etc. Able to modify textile prints design or create new design by sketch. Make color combo on textile prints either automatically or manually selection. To achieve the result on color separation and auto-match color.

肌理设计 Texture design

通过使用特殊工具，能够简单快捷的得到皮革肌理，针织肌理，褶皱肌理等效果，这是在肌理设计方面的革新。

By using the special function tools, it is so easy and quick to get the effect of leather, knits, ripple texture. It is the innovation on texture creation work.
